- Hassle-free design with a 3-year battery life*, pre-installed batteries and plug-and-play setup
- Six hot keys and 12 programmable F-keys**
- Logitech® Advanced 2.4 GHz wireless connectivity
- Logitech® Unifying receiver

Logitech® Wireless Keyboard K360. Beautifully convenient. Conveniently compact. You'll enjoy more comfort with your laptop or netbook and a layout you're used to—in a space-saving design that's about 20% smaller than our standard keyboards. It's virtually hassle-free with a 3-year battery life* and plug-and-play setup that takes seconds. The things you do most are easier too, thanks to six Internet and media hot keys and 12 programmable F-keys.** Logitech Advanced 2.4 GHz wireless connectivity gives you the reliability of a cord with wireless convenience and freedom—all in a tiny Logitech Unifying receiver that's small enough to stay in your laptop and lets you add compatible devices to it.

* Keyboard battery life calculation based on an estimated two million keystrokes/year in an office environment. User experience may vary.
** Programming keys requires Logitech SetPoint™ software (Windows®), available for download at www.logitech.com/downloads.
