An all-in-one cable solution for your connectivity needs

40Gbps Data Transfer Speeds

Transfer large files in the blink of an eye with speeds of up to USB4 40Gbps. Whether it's high-definition videos, substantial project files, or massive backups, get the efficiency of lightning-fast data movement, reducing waiting time and boosting productivity.

Over-Temperature Protection (OTP) up to 90C/194F

Each port connector contains E-marker chips with OTP that intelligently manage the safe and efficient delivery of power and data, to keep your devices from overheating.

240W Charging Power for All USB-C Devices

Featuring 240W PD 3.1 Extended Power Range (EPR), the cable delivers a powerful, future-proof 240W charging capacity for all USB-C devices, MacBook, PC laptops, tablets, and phones. Fast charge every laptop, including the MacBook Pro 16-inch for a 0 to 50% battery charge in about 30 minutes.

Compatibility with 1000+ Devices

This cable isn't just fast and durable; it's also incredibly versatile. Working seamlessly with over 1,000 USB-C devices, from smartphones to laptops, tablets to gaming consoles. One cable for all your connectivity needs, making it the ultimate solution for your tech ecosystem.

Pro-Grade 8K Video Resolution

Connect your laptop to an external display and get up to 8K@60Hz or 4K@144Hz video output. Visualize every detail, vibrant color, and smooth motion, whether you're gaming, designing, delivering a presentation, or extending your workspace.

EcoSmart[™] Sustainability Without Compromise

Featuring EcoSmart[™] technology, the cable's outer jacket and the plastic housing on the connectors are made from 35% Post Consumer Recycled (PCR) TPE.
